EXPERIENCE

Lead Software Architect

Zürich, Switzerland

evenito

Nov 2020

- Leading the technical effort on the event management platform
- Wearing multiple hats: SWE, DevOps, Architect/Principal SWE, etc.
- Mentoring and leading team members
- Migrated the app from a monolith in a single VM to cloud native event driven microservices running on Kubernetes and cloud functions, saving up to 40% in operating costs
- Introduced CI/CD, saving hours of fortnightly work time
- Introduced observability, monitoring, and alerting
- Introduced DORA metrics
- Optimized an abandoned open source Rust library to execute in 46ms down from 105s
- Driving AI adoption and practices in the dev team
- *Tech stack: Python, Rust, TypeScript, PostgreSQL, Firebase, Docker, Kubernetes, GCP, Terraform, Gitlab CI*

Senior Software Engineer/Software Engineering Team Lead

Zürich, Switzerland

Auterion

Jun 2018 – Jun 2020

- Managed three direct reports, hired new recruits
- Designed company wide interviewing practices
- Architected and built an IoT fleet management and flight analysis platform from scratch
- Designed analysis dashboards and tools with end users
- Architected and built anomaly detection and predictive maintenance for drones
- Bootstrapped the project, the CI/CD, infrastructure, and monitoring
- *Tech stack: Vue.js, TypeScript, Node.js, Rust, C++, Python, PostgreSQL, Docker, AWS, Terraform, GoCD, Gitlab CI, DataDog*

Senior Software Engineer

Zürich, Switzerland

Siroop

Jan 2017 – Jun 2018

- Feature lead on payment provider integrations
- Responsibility of payment provider integrations architecture
- Integrated the marketplace with Datatrans and ByJuno
- Implemented the foundation of the search and product data pipeline using AWS Lambda, DynamoDB, Elasticsearch, Node.js
- *Tech stack: Python, Django, Flask, PostgreSQL, NodeJS, DynamoDB, Lambda, Serverless, Elasticsearch, AWS ECS, Terraform, GoCD*

- ✓ Cloud Software Engineer with experience in more than a dozen projects since 2002.
- ✓ Full stack polyglot and DevOps engineer
- ✓ Passionate about Continuous Deployment
- ✓ Motorcyclist
- ✓ Chess player
- ✓ Enjoyer of board and video games

+41 79 353 45 20

Allmendstrasse 158

8041 Zürich, Switzerland

Azure Developer / Architect

Helsinki, Finland

Kompozure

Apr 2015 – Dec 2016

- Worked directly with a customer on an invoice processing app using Azure PaaS and C# .NET Core, SQL, Service Bus, Redis, Angular.js
- Architected and built a hybrid on-premise / Azure message broker with hot swappable components using C#, MEF, RabbitMQ, Azure Service Bus for public transportation ticket payment systems
- Provided Azure cloud software architecture consultation
- *Frequently used Azure services: Web Apps, SQL, DocumentDB, Blob Storage, Cache, Service Bus, Service Fabric, AD, Functions, Monitor*

Senior Software Engineer

Remote, Finland

Transfluent

Dec 2013 – Apr 2015

- Built a translation automation backend with a public API
- Implemented an open source Ruby SDK for the API
- Designed the architecture and roadmap to microservice migration
- *Tech stack: PHP5, Ruby, Angular.js, MySQL, PostgreSQL, AWS Elastic Beanstalk*

Software Engineer / DevOps

Lahti, Finland

Sympa

Apr 2011 – Dec 2013

- Built an HR app for large businesses and government organizations
- Automated code review and CI processes
- Worked on automating the deployment process
- *Tech stack: C#, F#, ASP.NET, nHibernate, MSSQL, IIS, JavaScript, CoffeeScript, Backbone.js*

Co-founder / CTO / Chairman of Board

Lahti, Finland

Neovica

Dec 2008 – Mar 2016

- Co-founded the company with the idea of providing a continuous improvement solution for factories.
- As the technical part of the founders, I built the company product alone for two years before we were able to hire personnel.
- Stepped aside from the operative side in 2011. Advised the company until I sold my share in 2016.
- *Tech stack: Linux, Apache, MySQL, PHP5, C++/Qt4*

EDUCATION

Lahti University of Applied Sciences – Lahti, Finland

Bachelor of Engineering, Software Technology, 2005–2010

SKILLS

Rust

8 years; axum, tokio, grpcio, diesel, SQLx, etc.

Python

8 years; Django, Flask, FastAPI, SQLAlchemy, etc.

C#

5 years; ASP.NET, .NET Core, Entity Framework

Bash/Linux

15+ years

HTML/CSS

15+ years

JavaScript/TypeScript/Node

10+ years; Vue.js, NestJS, Angular, Express, Webpack, Vite, etc.

PostgreSQL

10+ years

MySQL

5 years

MSSQL / Azure SQL

5 years

Servers / IaC

10+ years; Terraform, ARM

CI/CD

10+ years; Jenkins, CircleCI, Travis, GitLab CI, GitHub Actions, GoCD

Docker

8+ years

GCP

6 years; GKE, PubSub, Firebase, Cloud SQL, BigQuery, IAM, etc.

AWS

5 years; EC2, ECS, ASG, ELB, RDS, EFS, EBS, IAM, DynamoDB, Lambda, etc.

Azure

3 years; Web Pages, Azure SQL, Azure AD, DocumentDB, Functions, etc.
